## GRAFHAM SPECIFIC RULES

Entrants and authorised guests are temporary members of Grafham Water Sailing Club during the period of the event and shall comply with Club Rules and Bylaws. Failure to observe these may result in exclusion from the club premises.

### MOVEMENT OF BOATS TO GRAFHAM WATER

In order to prevent the spread of non-native species there is a requirement to ensure that boats are clean before they visit the site using the principle of Check Clean Dry <http://www.nonnativespecies.org/checkcleandry/index.cfm>. This includes:

**CHECK** your equipment and clothing for live organisms – particularly in areas that are damp or hard to inspect.

**CLEAN** and wash equipment, footwear and clothing thoroughly. If you do come across any organisms, leave them at the water body where you found them.

**DRY** all equipment and clothing – some species can live for many days in moist conditions. Make sure you don't transfer water elsewhere.

Anglian Water ask for boats and equipment, arriving at Grafham Water that are from the following locations, to have been clean and dry for at least two days prior to arrival – if not, then they must not be launched at the Club:

Wraysbury Reservoir and Wraysbury River near to Staines

The Queen Mother Reservoir

Queen Elizabeth II/Bessborough Reservoirs Queen Mary Reservoir

Warwick East Reservoir, Warwick West Reservoir and William Girling Reservoir all located in the Lee Valley

### MOVEMENT OF BOATS FROM GRAFHAM WATER

A non-native species of fresh water shrimp (commonly known as killer shrimps) have been found in Grafham Water and certain restrictions on boat movement have been imposed by AW, DEFRA or other bodies to prevent the spread of these to other locations in the UK. These requirements are prominently displayed on the club premises and will include washing boats and equipment before removal from the Club premises.

Failure to comply with the requirements of these restrictions may lead to expulsion from the event.

### SIGNALS MADE ASHORE

Signals made ashore will be displayed either on the flagstaff on the foreshore in front of the Club House, near the jetty, or on the jetty. Flag L may also be flown from a Committee Boat at the jetty.

When flag AP is displayed ashore, or from a Committee Boat at the jetty (with two sound signals) the lowering of flag AP (with one sound signal) signifies that the starting sequence will commence 'not less than 30 minutes' from the lowering of flag AP. This changes the meaning of AP in Race Signals.

**A GREEN FLAG** means 'sailing is unrestricted, except that sailing in the creeks at the West end of the water is **PROHIBITED** at all times. Wear adequate personal buoyancy at all times when afloat.

**RED FLAG** or **RED MAROON** means 'If ashore, do not go afloat. If afloat, come ashore immediately.

**A RED & WHITE** flag (Flag U) will be flown in strong wind conditions. This signifies that only experienced sailors who can cope with these conditions should launch.

**A BLUE AND WHITE** flag indicates that conditions are such that dinghy sailing is not allowed but experienced windsurfers are permitted to sail.

**A BLUE AND GREEN** flag indicates the presence of BLUE GREEN ALGAE in the reservoir and care should be taken whilst afloat and during launching and recovery of boats

### RACING AREA

The prohibited area at the West end of the water is an obstruction. Its boundary is a line of buoys forming its eastern boundary.

Each **fishing boat**, and an area extending 20 metres in any direction from the fishing boat is an obstruction.

A **safety boat** in close attendance to a craft or competitor in difficulty is an obstruction.

### EMERGENCY MEETING POINT

If you are involved in an emergency and you need to go to or direct others (including an emergency service such as an ambulance) to the Emergency Meeting Point at the Coxswain's Shed **52° 17.49 N, 000° 18.85 W**. Should aid be needed elsewhere on site, club staff and/or volunteers will divert resources there.

If you call an emergency service, you **must** inform a Staff Member (Coxswain or Office) so that GWSC can invoke its Emergency Protocol.
